

CUL002 / CUL003

CULLIGAN MAINS-FED FLOOR STANDING WATER COOLER

An elegant combination of functionality and style. The Culligan Mains-fed Floor Standing Water Cooler is a modern hydration solution that supplies high-quality drinking water all day long.

This machine is able to produce up to 240 cups of chilled water per hour thanks to Direct Chill technology, making it an ideal machine for high usage environments.

The conveniently positioned push buttons on top of the machine and spacious dispensing area make it incredibly easy to use. This popular and versatile appliance remains a strong favourite.

AVAILABLE OPTIONS:

CHILLED & HOT

AMBIENT & CHILLED

This high-capacity machine is ideal for any high usage environment; dispensing up to 20ltrs of water per hour.

Uses Direct Chill technology to chill the water efficiently and hygienically.

Spacious dispense area is large enough to fill glasses and bottles with ease.

Eliminate the need for single-use plastic.
